

Meeting Date	Chapter	Descriptor	Work Group Members	Special Workgroup Discussion	General TAG Discussion
April 4th	1	Scope and Administration: Application, enforcement, administration - operational & construction permits	Ken Brouillette Dan Shier		105.6.8 CO2 105.6.15 hydrants; 105.6.30 mobile food 105.6.38 MJ 105.6.36 outdoor assembly
	2	Definitions			Part of other reviews
April 4th	3	General Requirements: open burning; ignition sources; vacant building; miscellaneous storage; outdoor pallet storage; hazards to fire fighters	Corey Thomas Ken Brouillette Mark Jung Mark Murray Dave Kokot Diane Glenn	319 mobile food trucks	311.2.2 vacant buildings 315.7 outdoor pallet storage
April 4th	4	Emergency Planning & Preparedness: training/scheduled: fire, evacuation & lockdown drills	Paul Clark Michael Six Diane Glenn Mark Murray Matt Campbell Hank Teran	Chapter	
April 4th	5	Fire Service Features: fire access; identification; water supplies	Dave Kokot Hank Teran		510 Radio Coverage
April 4th	7	Fire and Smoke Protection Features: maintenance of fire-resistance rated assemblies	James Nance Al Audette		701.6 Owner's responsibility 703-706 Maintenance
April 18th	9	Fire Protection and Life Safety Systems: Fire Suppression, Standpipes, Fire Alarm, Alternative Systems, Smoke Control & Venting/Exhaust	Paul Clark Corey Thomas Dan Shier Kevin Marr Al Audette Diane Glenn David Tworkowski Bryan Hilfiker		903.3.1.2.3 Sprinklers in attics 904.13 Domestic Cooking 904.14 Aerosol extinguishers 907.5.2.3.3 Group R-2 prewire 907.2.3 Group E Voice Alarm 910.5 Vent maintenance 913.2.2 Fire pump circuits 916 Gas detection systems 917 Mass notification
April 18th	10	Means of Egress: addresses all portions of the egress system; doors, halls, stairs, etc.	James Nance Paul Clark		1010.1.1.4 List of not approved school after market devices

April 18th	11	Construction Requirements for Existing Buildings: provides for a minimum level of retroactive requirements for buildings constructed under previous code editions	Dave Kokot Mark Murray		1103.5.1 Group A-2 retro sprinklers 1103.9 Carbon monoxide 1104.16.2 Opening protection for fire escapes
April 18th	12	Energy Systems: systems that generate and store energy on site; standby & emergency power, PV, battery systems	Dave Kokot Al Audette Michael Six Mark Murray Paul Clark Dan Shier Bryan Hilfiker	Chapter - review against old Ch. 6 for differences	
April 18th	22	Combustible Dust-producing Operations: reduce the likelihood of dust explosions by managing the hazard	Chrtis Seaman Michael Six		2203.2 Dust Hazard Analysis
May 2nd	23	Motor Fuel-dispensing Facilities and Repair Garages: regulates storage and dispensing of liquid and gaseous motor fuels at public and private automotive, marine and aircraft fuel-dispensing facilities	Corey Thomas Kevin Marr		2303.2.1 Height 2306.7.3.1 Impact protection
May 2nd	28	Lumber Yards and Agro-Industrial, Solid Biomass and Woodworking Facilities: facilities storing, selling or processing wood and forest products	Hank Teran Michael Six		2810 Outdoor pallet storage
May 2nd	31	Tents, Temporary Structures and Other Membrane Structures: location, access, operations, anchorage, egress, etc	Ken Brouillette Diane Glenn		3103.3.1 Special amusement buildings 3103.6 Construction documents 3103.9 Structural stability 3106 Outdoor assembly event
May 2nd	32	High-piled Combustible Storage: storage of typical commodities over 12ft and high hazard commodities over 6ft	James Nance Dan Shier		3201.3.2 Approved storage layouts 3201.4 Fire Safety Plan 3203.8 Examples of commodity 3203.10 Plastic pallets 3206.2 Types of protection

May 2nd	38	Higher Education Laboratories: addresses unique needs of labs in higher education and the use of hazardous materials; addresses new and existing buildings	Matt Campbell Mark Murray		New chapter
May 16th	39	Processing and Extraction Facilities: specifics for hardous processes and solvents along with methodology for approving unlisted equipment	Corey Thomas Chris Seaman		Compare new plant extraction against existing WAC
May 16th	50	Hazardous Materials - General Provisions: general requirements for all hazardous materials in all occupancies	Chris Seaman Mark Murray		Table 5003.1.1(1) 5003.8.3 Control areas 5003.9.8 Separation of incompatible materials 5005.1.12 Emergency isolation
May 16th	53	Compressed Gases: regulates storage, use and handling of all flammable and nonflammable	Dave Kokot Bryan Hilfiker		5306.2.2 1-hr inerior room 5306.2.3 Gas cabinets 5307 Compressed gases not otherwise regulated
May 16th	57	Flammable and Combustible Liquids: storage, handling, use or transportation	Corey Thomas Kevin Marr Hank Teran Kevin Brouillette Chris Seaman Matt Campbell	5707 Mobile fueling	
May 16th	0	WUI	TBD		Compare to any passed legislation
May 16th		DOH: Definitions & Licensing Requirements	Matt Campbell Paul Clark Al Audette Chris Seaman James Nance Dan Shier Bryan Hilfiker	multiple chapters
