Subject: Accessible housing

To whom it may concern,

My partner is a quadriplegic. She will be looking for a new apartment in the coming months as her rent has gone up drastically in Ravenna. Cecelia needs quite a bit of space to get around with her wheelchair. Most importantly, her bathroom and shower need to be able to accommodate her. It took her forever to find her current place in Ravenna but if accessible housing is cut in this city from 5% to 2%, it's going to take her an eternity.

Please DO NOT slash accessible housing! If anything, it should be going up!
