Subject: New Building Code

To whom it may concern --

I would like to let you know that my family and I care deeply about the following:

- Reducing energy consumption in new residential buildings by about 20%
- Lower utility costs for residents
- Reducing the need for electricity, and for new power plants
- Helping to replace fossil fuels with clean energy

I hope you can integrate thoroughly these concepts into the new Code(s)!

Sincerely,

Steve Hoffman
Energy Auditor and Nonprofit Organization Director
