January 15, 2021							
HB 1050	Fluorinated gases	Fitzgibbon	Requires the Council to consider HFCs when adopting codes. Establishes a threshold for HFCs in refrigeration and directs Ecology to establish a management program. The bill will require various changes in the Mechanical Code. This can be done during the standard three year code cycle review, modification and implementation process.	Neutral – Monitor	H Env & Energy; Public hearing on January 15	No; changes to mechanical code can be done during the standard three year code cycle process.	Minor
HB 1084 Companion SB 5093	Building decarbonization AKA Healthy homes and clean buildings act	Ramel	Changes the statute to require a 70% reduction in net energy consumption by 2027 and eliminate on-site fossil fuel combustion for space and water heating. Energy reduction has been codified as a 70% reduction from 2006 by 2031. The Council has been working toward an incremental approach each three year code cycle. Going from 2031 to 2027 eliminates one cycle, compressing the financial impact for the remaining cycles. January 22, 2021							
HB 1184 Companion SB5087	On-site nonpotable water systems.	Duerr (Prime), Ramel, Dolan, Harris-Talley	Requires the department of health to consult and coordinate with SBCC when developing rules related to on-site nonpotable water systems and when developing the building code language. Although it is unclear at this time how the department of health is planning to coordinate and consult with SBCC, the mandates in this bill have potentially big impacts on SBCC normal course of business. The effective date (July 1, 2022) is unrealistic. Cross connection (contamination) is an issue.	Neutral/ Monitor	H Local Govt	Yes Fiscal impact above \$60,000	Yes
SB 5087 Companion HB1184	On-site nonpotable water systems.	Hasegawa (Prime), Wilson, C.	See HB 1184	Neutral	S Environment, E & Technology	Yes	Yes
HB 1280	Concerning greenhouse gas emissions reductions in the design of public facilities.	Ramel (Prime), Duerr	Addresses greenhouse gas emissions reductions in the design of public facilities, and is amending RCW 39.35.010, 39.35.020, 39.35.030, and 39.35.050. The language, as written, is irrelevant to the SBCC business.	Miss- assigned			
SB 5280	Administrative procedures	Wilson, J. (Prime), Fortunato	Narrows the rulemaking authority for state agencies, including the SBCC. Currently, code amendments remain valid for years unless modified in the future by the Council. The bill specifies that in those circumstances where an agency is authorized to write a rule, the rule expires on June 1 of the year following the adoption, unless the legislature postpones the expiration. This waiver would be required for nearly all of the SBCC rulemaking. This is a simplified version of SB1052 from the last session.	Neutral/ Monitor	S State Govt & E	Policy impact: Major Fiscal impact: less than \$50,000	Major The SBCC may not be able to meet its obligations under RCW 19.27 because the SBCC may lose flexibility and the ability to respond quickly to changing situations, which is typical in the building industry.
