Question/Comment HB 1084's attempt at banning Natural Gas in New Construction is ill-advised, we are aware "Burning natural gas for energy results in fewer emissions of nearly all types of air pollutants and carbon dioxide (CO2) than burning coal or petroleum products to produce an equal amount of energy. Natural gas is cheaper to operate and use , it also burns cleaner" not to mention the thousands of jobs to be lost from this bill. Please do not pass this ban on Natural gas
