**Question/Comment**

Hi – My name is Andrew Pugmire. I do business development for an electrical distributor with hundreds of employees and thousands of customers in Washington State.

We are capable and eager to work with manufacturers to continue to provide green energy solutions to Washingtonians – whether it's solar, EV, or automation. We are ready to support contractors in our move towards decarbonization. We have full confidence that manufacturing and distribution will be able to handle this shift in the market.

We ask the council to, without edits, send the all commercial energy code proposals vetted by the Energy Code TAG and the MVE committee forward to the Public for comment.
