

IRC TAG Existing Amendment Report

Summary:	Delete existing state amendment		Keep existing amendment as modified		Keep existing amendment May include renumbering		
Last Updated 02/17/2022							
WAC	Title or Subject	2018 IRC Number	2021 IRC Number	TAG Member Comments	TAG Recommendation	Staff Recommendation	TAG Group Notes and Decision
00 General							
TAG Member: Ray Shipman (Staff)							
51-51-001	Authority	NA	NA			Keep amendment	Keep amendment
51-51-002	Purpose	NA	NA			Keep amendment	Keep amendment
51-51-003	International Residential Code	NA	NA	Change 2018 edition to 2021. Are the appendix still Accurate?		Modify amendment	Modify amendment
51-51-007	Exceptions	NA	NA			Keep amendment	Keep amendment
51-51-008	Implementation	NA	NA	Implementation date needs changed to July 1, 2023		Modify amendment	Modify amendment
01 Scope and Administration							
TAG Member: Jennifer Eliuk							
WAC 51-51-01010	Scope	101.1		Section number is wrong, should be 101.2 Scope (101.1 is Title). IBC refence section number for live work units needs to be updated to 508.5	modify amendment		Modify amendment
51-51-0102	Applicability	102					
	Appendices	102.5		Exception 2 should reference Appendix U for fire sprinklers, not Appendix Q (that is tiny homes).	MODIFY amendment		Modify amendment
	Additions, alterations or repairs	102.7.1		Base language has changed from "...become unsafe..." to "...less compliant..."	Code change proposal needed		Match model code base language and keep all state amendment exceptions
	Moved buildings	102.7.2		R102.7.2 does not exist in base code	KEEP		Keep amendment
51-51-0106	Construction Documents	106					
	Submittal documents	106.1		Base code was changed to match our language verbatim. Amendment no longer needed.	DELETE		Delete Amendment
02 Definitions							
TAG Member: Jennifer Eliuk							
51-51-0202	Definitions	202	202		Any definitions not listed below, we can KEEP as is		See notes on side

	Balanced Whole House Ventilation			Two new definitions "Balanced Ventilation" and "Balanced Ventilation System" were added, ours can possibly be deleted or modified.	Needs code change proposal		Use model code
	BATTERY SYSTEM, STATIONARY STORAGE			Has been eliminated from the base code, so we can eliminate this one.	DELETE		Delete amendment
	Building, Existing			"Building, Existing" appears in the list out of order, should be AFTER "Building".	MODIFY		Modify amendment to notes
	ENERGY STORAGE SYSTEMS (ESS)			This definition was not in the base code previously but has been added and is <i>similar</i> , consider scrapping ours for theirs or modifying.	Needs code change proposal		Delete amendment
	LOT			Was modified in the base code to match our language	DELETE		Delete Amendment
	MIXED VENTILATION ZONE			This deflection doesn't exist nor did it in 2018, so we don't need to say we're not adopting it.	DELETE		Delete amendment
	TOWNHOUSE			They adopted our language so we can eliminate this one.	DELETE		Delete amendment
	TOWNHOUSE UNITS			A single-family dwelling unit in a townhouse that extends from foundation to roof and that has a yard or public way on not less than two sides that extends at least 50 percent of the length of each of these two sides.			Keep amendment
	WHOLE HOUSE VENTILATION SYSTEM			Base code has a similar definition WHOLE HOUSE MECHANICAL VENTILATION SYSTEM - is ours necessary? Not sure what the distinction is between them.	Needs discussion		Use model code

03 Building Planning

TAG Member: Jennifer Eliuk / Quyen Thai

51-51-0301	Design Criteria	301					
	Climatic and geographic design criteria	301.2		Update table number to R301.2	MODIFY		Modify amendment
	Live load	301.5		Table in case code has changed, including a new column for concentrated load.	Needs code change proposal		Use model code language. keep deck live load of 60 and footnote (I) but change to (J)
51-51-0302	Fire-Resistant Construction	302					

	Double walls	302.2.1		CORRECT IBC section reference to 703.2.2 (not a new change)	MODIFY		Modify amendment
	Common walls	302.2.2.2		Lots of changes in this section	Needs code change proposal	Modify amendment	Match model code language and add electrical WAC
	Continuity	302.2.3		Base code only changed to add "townhouse units" in the same spot we have it. No other changes to base code.	KEEP		Keep amendment
	PARAPETS FOR TOWNHOUSES	302.2.4		Base code was changed to match our language, which was the addition of "townhouse units"	DELETE		Delete amendment
	Tables R302.1(1) & R302.1(2)			These are included in the amendments but we don't show the actual table, and then we have language that says "No change to the Table" in it's place, which in a way kind of actually deleted the table? I think we should remove these "amendments" since they don't amend anything.	Needs discussion		Keep amendment
	R302.3 Two-Family Dwellings			Base code has a couple of changes such as adding a statement that separation is required whether or not there is a real lot line between units	further research to adopt model code	Keep amendment	Keep amendment
	R302.3.1 & R302.3.2 (no titles)			These are new sections we have added, however they are both missing a title. Consider modifying to add descriptive titles to both, especially since the base code has Supporting Construction at R302.3.1 (at first I thought we had amended the same section, but we moved it to R302.3.3).	Needs discussion		Modify amendment titles R302.3.1 Separation R302.3.2 Continuity
	R302.3.3 Supporting Construction				KEEP		R302.3.3 Supporting Construction
	R302.4.1 Through penetrations			Base code has added a new exception, needs consideration.	Needs code change proposal		Delete amendment
	R302.13 Fire protection of floors			No changes to base code	KEEP		Keep amendment
51-51-0303	Light, ventilation, and heating	303.0					

	Natural light	303.1		Changes to base code exceptions, our amendment only has one amendment, not sure if we care about the changes or not.	Needs discussion		Keep amendment
	Adjoining rooms	303.2			KEEP		Keep amendment
	Bathrooms	303.3			KEEP		Keep amendment
	Minimum ventilation performance	303.4		I think we keep this with a modification to correct the section reference to M1505	Needs discussion		Modify amendment Update section ref.
	Opening location	303.5		Base code already matches this verbatim, not sure why we have an amendment for this.	DELETE		Delete Amendment
	Intake openings	303.5.1		No changes to base code	KEEP		Keep amendment
	Exhaust openings	303.5.2		No changes to base code	KEEP		Keep amendment
	Exhaust ducts	303.5.2.1		Does not exist in base code	KEEP		Keep amendment
	Interior stairway illumination	303.7		No changes to base code	KEEP		Keep amendment
	Exterior stairway illumination	303.8		No changes to base code	KEEP		Keep amendment
	Required glazed openings	303.9		No changes to base code	KEEP		Keep amendment
	Required heating	303.10.		No changes to base code	KEEP		Keep amendment
	Definitions	303.10.1		Does not exist in base code	KEEP		Keep amendment
	Primary heating source	303.10.2		Does not exist in base code	KEEP		Keep amendment
	Solid fuel burning devices	303.10.3		Does not exist in base code	KEEP		Keep amendment
51-51-0307	Toilet, bath, and shower spaces						
	Space required	307.1		Keep but double-check the code section reference to the state plumbing code once the 2021 draft is available	KEEP		Keep amendment Check with plumbing code
51-51-0308	Reserved			Do we need these "Reserved" random code sections called out in the amendments? Not sure what their purpose might be. Suggest we just strike them unless they provide some value.		Keep amendment	Keep amendment
51-51-03100	Emergency Escape and rescue openings						See notes on side
	Emergency escape and rescue opening required	310.1		Base code has some changes that we may want to accept and then delete this amendment since they both are trying for the same goal, just worded differently.	Needs code change proposal		Delete amendment

	Operational constraints and opening control devices	310.1.1		Base code was modified to include our language that window controls are not more than 70" above floor, AND that this applies to fall prevention devices by clearly stating that in the language, vs ours that just references ASTM F2090. Suggest we delete our amendment.	DELETE		Delete amendment
	Emergency escape and rescue openings under decks and porches	310.2.4		They have added language to include cantilevers as well, we should consider including this in our amendment (can keep everything else the same).	MODIFY		Modify amendment add language to include cantilevers
51-51-0311	Means of egress	311					
	Vertical egress	311.4		No base code changes	KEEP		Keep amendment
	Vertical rise	311.7.3		Base code was modified to match our language verbatim, can be deleted.	DELETE		Delete amendment
51-51-0313	Automatic fire sprinkler systems	313					Keep amendment
	Townhouse automatic fire sprinkler system	313.1		No base code changes	KEEP		Keep amendment
	Design and installation	313.1.1		No base code changes	KEEP		Keep amendment
	One- and two-family dwellings automatic fire sprinkler systems	313.2		No base code changes	KEEP		Keep amendment
51-51-0314	Smoke alarms and heat detection	314					Keep amendment
	General	314.1		No base code changes	KEEP		Keep amendment
	Listings.	314.1.1		No base code changes	KEEP		Keep amendment
	Where required	314.2		No base code changes	KEEP		Keep amendment
	New construction	314.2.1		No base code changes	KEEP		Keep amendment
	Alterations, repairs and additions	314.2.2		No base code changes	KEEP		Keep amendment
	New attached garages	314.2.3		Does not exist in base code	KEEP		Keep amendment
	Location	314.3		They've added a new exception, suggest we modify to include it as well.	MODIFY		Modify amendment. Add model code exception #5 but make it #6
	Interconnection	314.4		No base code changes	KEEP		Keep amendment
	Heat detection interconnection	314.4.1		Does not exist in base code	KEEP		Keep amendment
	Power source	314.6		No base code changes	KEEP		Keep amendment
51-51-0315	Carbon monoxide alarms						
	Where required	315.2		We can strike this, it matches base code exactly, and did in 2018 as well.	DELETE		Delete amendment
	New construction	315.2.1		No base code changes	KEEP		Keep amendment
	Alterations, repairs, and additions	315.2.2		They've added a new exception but we already have similar language, I think we can keep it as is.	KEEP		Keep amendment
	Location	315.3		No base code changes	KEEP		Keep amendment
51-51-0317	Reserved						Keep amendment
51-51-0322	Reserved						Keep amendment
51-51-03240	Solar energy systems						

	Photovoltaic systems	324.3		Base code has added a requirement for the electrical portion of systems, so we will need to modify our amendment, likely adding same language.	Needs code change proposal		Staff will research
	Rooftop-mounted photovoltaic systems	324.4		No base code changes	KEEP		Staff will research
		324.7.1		Not adopted	KEEP	Keep amendment	Staff will research
51-51-0325	Mezzanines			Keep, no changes			Keep amendment
	General	325.1					
51-51-0326	Habitable attic			This whole section has changed, will need attention. There is an error in the base code, it says habitable attics shall comply with 326.2 through 326.3 however there is an additional section 326.4.	Needs code change proposal	Keep amendment	Code change proposal needed
	General	326.1		see above		Keep amendment	Code change proposal needed
	Minimum dimension	326.2		see above		Keep amendment	Code change proposal needed
	Story above grade plane	326.3		see above		Keep amendment	Code change proposal needed
	Means of egress	326.4		see above		Keep amendment	Code change proposal needed
51-51-0327	Sleeping lofts	327		NOTE: Reviewed against Appendix Q Tiny Homes			
	General	327.1		No base code changes	KEEP		
	Sleeping area loft and dimensions	327.2		No base code changes	KEEP		
	Area	327.2.1		No base code changes	KEEP		
	Minimum horizontal dimensions	327.2.2		Base code only changed to add the word "horizontal" to this section title, no additional changes were made.	KEEP		
	Height effect on sleeping loft	327.2.3		Base code has added a new figure to help with understanding which portion of sleeping loft counts towards minimum required floor area.	MODIFY: Adopt/include new figure (number it Figure R327.2.3); Revise text at end of paragraph to reference figure: "See Figure R327.2.3."		
	Sleeping loft access and egress	327.3		Base code was changed to add our same requirement for access and egress, but has worded it differently.	MODIFY: Revise this section to match base code language exactly. NOTE: Normally in this case I would say we can delete our amendment because we want to match base code language, however with this text coming from Appendix Q I think we still need the amendment?		

	Stairways	327.3.1		Base code was only modified to update a section number reference, our existing text is correct, no changes necessary.	KEEP		
	Headroom	327.3.1.1		Base code changed to pretty much match us	MODIFY: Grammar suggestions only: remove the comma after "landing," and remove the apostrophe in "nosing's" (should be plural not possessive).		
	Width	327.3.1.2		No base code changes	KEEP		
	Treads and Risers	327.3.1.3		No base code changes	KEEP		
	Landings	327.3.1.4		Was previously not in the base code, they have now added this verbatim to ours.	KEEP		
	Landing platform	327.3.1.5		Base code has revised the dimensions for landing platforms, including a new minimum landing platform riser height.	MODIFY: Revise to match same dimensions as base code.		
	Handrails	327.3.1.6		No base code changes	KEEP		
	Stairway guards	327.3.1.7		Base code revised to match us verbatim	KEEP		
	Ladders	327.3.2		No base code changes	KEEP		
	Size and capacity	327.3.2.1		Base code was revised to match our minimum 300-pound load capacity.	KEEP		
	Incline	327.3.2.2		No base code changes	KEEP		
	Alternating tread devices	327.3.3		No base code changes	KEEP		
	Ships ladders	327.3.4		No base code changes	KEEP		
	Sleeping loft guards	R327.4		Base code was revised to match our requirements	KEEP		
	Emergency escape and rescue openings	327.5		No base code changes	KEEP		
51-51-0328	Swimming pools, spas, and hot tubs	328					
	General	328.1		No base code changes	KEEP		Keep amendment
51-51-0329		329		This section has been heavily modified in the base code, will need review and changes to our amendments. They have also added two new sections for Stationary Engine Generators and Stationary Fuel Cell Power Systems. These new sections will push subsequent section numbers.	Needs code change proposal overall		Copy model and renumber Modify amendment Come up with numbering Fix
	General	329.1		New exceptions were added	MODIFY		Copy model and renumber Modify amendment
	Equipment Listing	329.2			KEEP		Copy model and renumber Modify amendment

	Installation	329.3		New subsection under this was added	KEEP		Copy model and renumber Modify amendment
	Electrical installation	329.4		Renumber to R329.6 to accommodate new sections ahead of it.	MODIFY		Copy model and renumber Modify amendment
	Ventilation	329.5		Renumber to 329.9	MODIFY		Copy model and renumber Modify amendment
	Commissioning	329.6		Renumber. Does not exist in base code so not sure where it goes.			Copy model and renumber Modify amendment
	Installation prior to closing	329.6.1		Renumber too			Copy model and renumber Modify amendment
	Protection from impact	329.7		Renumber to 329.8	MODIFY		Copy model and renumber Modify amendment
51-51-0330	Adult family homes	330	332	Revise section number to 332 to accommodate two new sections in the base code that appear directly after ESS. No other changes necessary since this whole section is unique to WA.	MODIFY		Copy model and renumber Modify amendment
	General	333.1	332				Copy model and renumber Modify amendment
	Reserved	330.2	332				Copy model and renumber Modify amendment
	Sleeping room classification	330.3	332				Copy model and renumber Modify amendment
	Types of locking devices and door activation	330.4	332				Copy model and renumber Modify amendment
	Smoke and carbon monoxide alarm requirements	330.5	332				Copy model and renumber Modify amendment
	Escape windows and doors	330.6	332				Copy model and renumber Modify amendment

51-51-2904	Dwelling unit fire-sprinkler systems			<p>In this TAG members opinion the significant changes to Section P2904 are as follows: Section P2904 for dwelling unit fire sprinklers systems has been revised to reflect current installation practices and to correlate with some common acceptable methods in NFPA 13 D. Section P2904 states that installations must comply with NFPA 13D or Section P2904, and the Section P2904 is considered equivalent to NFPA 13 D.</p> <p>The following is a summary of significant changes to IRC Section P2904: 1. Section P2904.2.1: Permits intermediate temperature sprinklers to be used in lieu of ordinary temperature sprinklers. 2. Section P2904.2.3 Allows listed dry pipe residential sprinkler for freeze protection. 3. Section P2904.3.2 Permits a</p>	<p>This TAG member sees no reason to make any additional changes to Washington State Building Code Appendix U for 2021 cycle for the reasons listed in the comment section below.</p>		<p>Code Proposal needed. Further research needed for clarification Keep amendment</p>
