Code(s) 2024 IFC Section(s) 4101.1 General

The provisions of this chapter shall apply to the use, operation, testing and maintenance of mobile and portable equipment and devices used for temporary heating and cooking. Temporary heating and cooking operations with open flames shall also comply with any additional applicable requirements in Section 308

Exception: Temporary heating devices used in the course of construction, alteration and demolition of structures shall comply with Section 3304.

Amendment needed to include:

4101.1.1 Use period.

Temporary heating and cooking, shall not be performed for a period of more than 180 days within a 12-month period on a single premises.

Amend section to read as follows:

4101.1.1 Use period.

<u>Temporary heating and cooking, shall not be performed for a period of more than 180 days within a 12-month period on a single premises.</u>

5. Briefly explain your proposed amendment, including the purpose, benefits and problems addressed. Specifically note any impacts or benefits to business, and specify construction types, industries and services that would be affected. Finally, please note any potential impact on enforcement such as special reporting requirements or additional inspections required.

The proposed amendment will be consistent with the definition of temporary use period as noted in 3103.4 for temporary tents, air-supported, air inflated or tensioned membrane structures.

6.	Specify what criteria this proposal meets. You may select more than one.	
	☐ The amendment is needed to address a critical life/safety need.	
	The amendment clarifies the intent or application of the code.	
	☐ The amendment is needed to address a specific state policy or statute.	
	The amendment is needed for consistency with state or federal regulations	
	The amendment is needed to address a unique character of the state.	

The amendment corrects errors and omissions.
7. Is there an economic impact: Yes No
If no, state reason: This is consistent with the definition found with temporary use periods for tent membrane structure. The code change proposal will not increase or decrease the cost of construction
If yes, provide economic impact, costs and benefits as noted below in items $a-f$.
a. <i>Life Cycle Cost.</i> Use the OFM Life Cycle Cost <u>Analysis tool</u> to estimate the life cycle cost of the proposal using one or more typical examples.
